SUMMARY

Web and Mobile Developer with 3+ years of experience building responsive, high-performing web and mobile applications. Skilled in the MERN stack with TypeScript, React Native, Next.js, and AWS Cloud. Experienced delivering scalable, secure solutions for clients in the Philippines and Australia.

SKILLS

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, HTML, CSS

Backend: Node.js, Express.js, NestJS, PHP, Python, REST APIs

Databases: MongoDB, PostgreSQL, MySQL, Firebase, DynamoDB

Cloud & DevOps: AWS (EC2, S3, Lambda, Amazon Connect), CI/CD, Hostinger, Heroku

Tools: Git, GitHub, Postman, Navicat, Figma

PROFESSIONAL EXPERIENCE

Full-Stack Developer — DOLE Region 4A April 2026 - Present

- Collaborate with the development team to design, build, and ship full-stack features
- Maintain and test the system throughout development for stability and client readiness
- Serve as main point of contact, resolving issues and translating client requirements into working solutions
- Maintain the database with a focus on accurate, up-to-date records and documentation

Cloud Developer Expert — iCXeod Philippines Inc. (Remote) June 2025 - September 2025

- Deployed Amazon Connect IVR and contact flows tailored to client requirements
- Managed production deployments and CI/CD integration with the DevOps team
- Built backend services and integrations using Node.js and Python
- Responded to client concerns and collaborated with the team to implement solutions
- Provided technical support and created documentation for systems built

Full Stack Developer — Hacienda Darasa Resort and Hotel (Hybrid) February 2025 - May 2025

- Implemented business logic and optimized database performance for reliable, scalable operations
- Built a high-performance Android application using React Native
- Integrated backend systems with front-end designs for a seamless user experience

Web & Mobile Developer — Freelance, Australia & Philippines 2024 - Present

- Built scalable web and mobile applications using Next.js, Node.js, and React Native
- Researched new technology stacks and aligned with clients on technical strategy

EDUCATION

BS in Information Technology — Laguna State Polytechnic University 2021 - 2025

- Capstone project: Research Management Portal (ResearchTree), a research defense platform connecting students, advisers, and panels
- Developed real-time collaboration tools and a document review/revision workflow
- Tech stack: MERN Stack, TypeScript, Next.js, Angular.js, Firebase, AWS Cloud

ICT Strand, Senior High School — Saint John and Paul Sr. High School 2018 - 2021
